

JONATHAN GALLEGOS

Senior Software Developer

jgallegosbarrera@gmail.com | (+56) 9 7149 4534 | Santiago, Chile | jonathangallegos.cl | linkedin.com/in/jonagallegos | github.com/PacificSilent

PROFESSIONAL SUMMARY

Senior Software Developer with 8+ years building high-impact web and mobile products. Specialized in frontend and cross-platform development with React, React Native and Node.js, plus real-time systems (WebRTC, WebSockets). Currently at Tenpo, Chile's first neobank, working on fintech, insurance and assistance experiences. Strong focus on product quality, clean execution and AI-augmented development.

EXPERIENCE

Tenpo — Software Engineer

December 2022 - Present • Santiago, Chile

Contributing to frontend/mobile development in Tenpo banking app, Chile's first neobank, focused on financial experiences (credit card), insurance and assistance products.

- Credit card financing and user flows.
- Insurance and assistance offering implementation.

Stack: React Native, Frontend Mobile, Fintech, Product + Business

TINET S.A. — Software Engineer

August 2017 - September 2022 • Santiago, Chile

Delivered enterprise software across multiple industries, including requirements analysis, architecture and implementation under quality standards.

- Vida Security, Liberty and Consorcio (insurance)
- WOM (telecommunications)
- Habitat (pension funds)
- Universidad Andrés Bello tuition payment platform (education)
- SAESA (electric billing, consumption analytics and digital customer experience)

Stack: Angular, React JS, React Native, Ionic, Enterprise Software

EDUCATION
